TREND GOES CORDLESS

Introducing T18S, the brand new Cordless power tool range from Trend, the experts in routing and job completion.

T18S. Trend has used its 65 years of expertise to create a range of tools to meet the demanding needs of the tradesperson.

FOR THE PERFECT FINISH.

CURATED FOR COMPLETION

Designed for the rigours of a trade environment, T18S range has been carefully created to offer the right tools for job completion.

Led by the Router, with its plunge and trim bases (perfect for routing edges, hinges, and compact laminate worktops etc) the range offers everything you'd need to complete the job.

The Circular Saw and Mitre Saw are designed for cutting and fitting trims, panels and worktops. The adaptable Biscuit Jointer will not only secure and align the worktop joints, it can also build bespoke

cabinetry, while the three Sanders take care of any preparation or fine surface finishing.

The powerful Impact Driver and Combi Drill can fix to masonry and timber, drill through metal, run holes for pipework and cables and also do the finer door alignment work, while the Angle Grinder takes care of those tough cutting tasks.

If light is fading, or if you're working in a confined dark space, the Site Light provides a safer working environment.

RANDOM ORBITAL SANDER

Remove old finish, prepare walls for new paint and more with the highly efficient Random Orbital Sander.

COMBI DRILL

Drill holes for pipework or pilot holes for screws with the lightweight and powerful Combi Drill.

IMPACT DRIVER

Fit doors and get into tight spots with the powerful compact Impact Driver.

MITRE SAW

Use the laser guided compact Mitre Saw to make crisp, clean and accurate cuts on all decorative trims, flooring and finish work.

SITE LIGHT

The 3 brightness settings on the Site Light are ideal for working in tight spots like kitchen cupboards.

ANGLE GRINDER

Cutting stainless steel cooker hood chimneys to size is clean and quick with the Angle Grinder and Trend Cutting Discs.

THIRD SHEET SANDER

Sand large flat areas to a fine finish with ease using the Trend Third Sheet Sander and Trend Abrasives.

DETAIL SANDER

Get into tight corners with the Trend Detail Sander, perfect for timber worktops.

CIRCULAR SAW

Cut or trim worktops to length quickly, easily and accurately with the Trend Circular Saw.

ROUTER

Cut perfect joints in a single pass on Compact Laminate worktops with the high performance Twin Base Router.

BISCUIT JOINTER

Align and securely connect worktop joints using the Trend Biscuit Jointer.

A SYSTEM 65 YEARS IN THE MAKING

T18S

**TREND[®] TRINITY
TECHNOLOGY**

3-TIER SYSTEM TECHNOLOGY

The performance of any power tool range is more than just skin deep. What really matters is what's going on inside. T18S is built around three essential elements which give the range its power, control and performance: Together, we call this Trinity Technology. Trinity Technology is the perfect relationship between the 18V TXLi battery platform (designed for maximum life), the high performance motors (designed for high productivity) and the latest advanced electronics (which deliver high efficiency).

18V TXLi
TREND[®] XPERT LITHIUM-ION

BATTERY PLATFORM

JOB COMPLETION WITH ONE BATTERY

At the heart of the T18S Trend Cordless Power Tool Range are the Trend Xpert Lithium Ion 18V TXLi Batteries.

Three options are available, the 2Ah Compact, the 4Ah Slimline and the 5Ah Heavy duty.

Each one is designed to give consistent power for T18S Cordless Tools to ensure you can complete your tasks for any application.

With three battery sizes available and ready to fit any tool within the Trend T18S range, each tool can be set up with a battery tailored to suit any power tool and the application – and with 6A fast charging, to minimise downtime, meaning you can focus on job completion.
