## HONING COMPOUND BAR KIT REF. DWS/HP/KIT

Thank you for purchasing this Trend product, which should give lasting performance if used in accordance with these instructions.

The following symbols are used throughout these instructions.

Denotes risk of personal injury, loss of life or damage to the tool in case of non-observance of the instructions.

### INTENDED USE

This accessory is intended to be used with chisels, carving tools plane irons and similar bladed hand tools that have had their cutting edges sharpened, to give a highly polished cutting edge.

### SAFETY

**All cutting edges are very sharp and care must be taken to prevent injury. Never sharpen blades towards the hand or body.**

The honing compound bar is non-toxic but it may cause eye or skin irritation. Wear gloves and eye protection. Bar is a mix of aluminium oxide abrasive suspended in a binder of animal, vegetable and petrochemical origin.

**Read instructions before use. Do not get in eyes, or skin, or on clothing. Wear protective gloves, eye protection.**

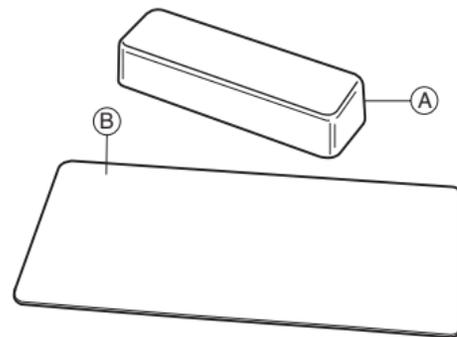

Safety Data Sheet available upon request or as download from [www.trend-uk.com](http://www.trend-uk.com)

### ITEMS REQUIRED

- Flat bench.
- Sharpened chisel/plane iron.
- Gloves.
- Eye protection.

### ITEMS ENCLOSED & DESCRIPTION OF PARTS

- A. Honing bar 100 gm x1
- B. Leather strop x1

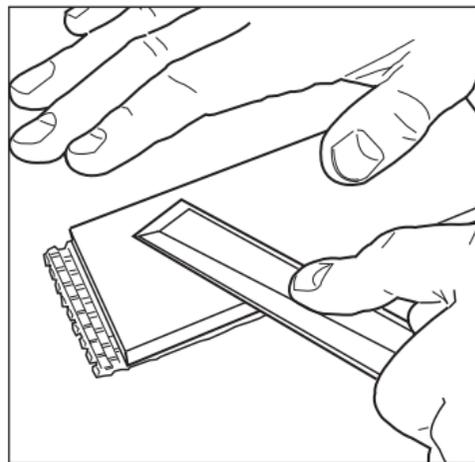

**Ensure the leather strop is placed at a comfortable working height when honing. Ensure working position is comfortable. Keep proper footing at all times.**

### OPERATION

1. Once you have attained a keen edge on your chisel, plane blade, carving tool etc. Back off the tool on the stone. We recommend using the fine side of a precision flat diamond stone.

2. Lay leather strop out flat with the rough side uppermost.

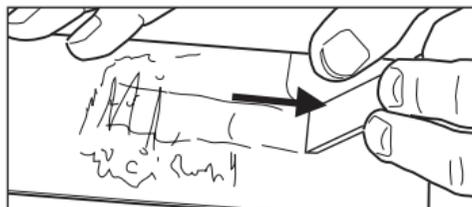

3. Apply some honing (polishing) compound to top half of the leather strop. Wear gloves.

4. Rub the bevel edge sided of the blade into the paste a few times.

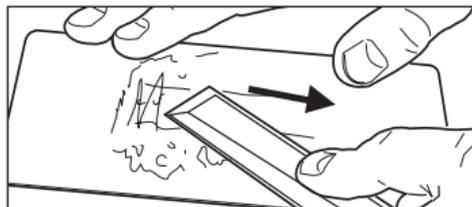

5. Polish off the surface of the tool on the clean half of the leather strop.

6. Repeat until you have attained your desired polished edge – this should take a matter of a couple of minutes and not hours.

7. Then repeat the method on the flat side of the blade.

8. Wash hands after use.

## SPARE PARTS

Only use original Trend spare parts and accessories.

Item	Qty	Desc.	Ref. (1 off)
A	1	Honing Compound Bar 100gm	DWS/HP/100
