⚠️ WARNINGS

California Proposition 65

Some products sold in this catalog and on our website, may contain chemicals or materials listed on the Proposition 65 Harmful substance list. For details, please see individual product webpages for full safety sheets and certifications. If you would like to find out more information on Proposition 65 and what it means, please visit the official Prop65 information website www.p65warnings.ca.gov

Please note: The following links take you to an external website, Trend Machinery & Cuttings Tools Ltd, can not be held responsible for the content of third party websites.

⚠️ Wood Dust

WARNING: Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.p65warnings.ca.gov/wood

⚠️ Diamond Sharpening, Hand Tools.

WARNING: The metal parts of this product contain Nickel compounds, a substance known to the State of California to cause cancer. None of these products are to come in contact with food and drinking water. Please wash your hands with soap and water after touching these products. For more information go to www.p65warnings.ca.gov

⚠️ Electrical Cords

WARNING: The wires of this product contain Nickel compounds, a substance known to the State of California to cause cancer. None of these products are to come in contact with food and drinking water. Please wash your hands with soap and water after touching these products. For more information go to www.p65warnings.ca.gov

⚠️ Lapping Fluid

WARNING: This Petroleum based product can expose you to chemicals including Toluene and Benzene, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov/petroleum

⚠️ Air Circulating Face Shield and Accessories

WARNING: This product can expose you to chemicals including Bisphenol A, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

⚠️ Honing Compound

WARNING: This product can expose you to Titanium Dioxide, which is known to the State of California to cause cancer. For more information go to www.p65warnings.ca.gov

GUARANTEE TREND LIMITED TOOLING WARRANTY

All Trend tools are engineered and manufactured to the highest standards for optimum performance and service life. Trend warrants to the original purchaser at retail that each new Trend tool shall be free from defects in material and workmanship, subject to the guidelines below. Upon verification of failure or malfunction, Trend shall, at its option, within 28 days, repair or replace the tool. Subject to the guidelines below.

Guidelines

1. In the event of failure or malfunction, return the product, properly packaged and postage prepaid, to Trend Routing Technology Inc.
2. All implied warranties for Trend's power tools (INCLUDING MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE) are limited to the period of one year from the purchase date. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.
3. A warranty claim shall be limited to repair or replacement as stated in Trend's Limited Tool Warranty and in no event shall Trend be liable for any other direct, indirect or consequential damages, costs or expenses. INCIDENTAL AND CONSEQUENTIAL DAMAGES ARE EXCLUDED UNDER ALL WARRANTIES. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above may not apply to you.
4. Trend warranties give you specific legal rights, and you may also have other rights, which vary from state to state.
5. Trend warranties shall not be deemed to have failed their essential purpose while Trend is willing to repair or replace defective products.
6. Trend assumes no liability for defects or damage caused by abuse or misuse of any product or unauthorised service of any product. The product must have been used for its recommended purpose and not modified by sharpening or other changes. Normal wear and tear are not covered under Trend warranties.
7. Any action for breach of warranty must be commenced within one year after the accrual of the cause of action.

Shaping

Templating Curved pieces

Batch Cutting

Panel Raising

Working with Thinner Material

User-friendly, oversized locking knobs sit above the fence for easy operation

Lead On-Starters Pin for use when templating with bearing guided cutters

Transparent Cutter Guard allows users to see the stock progression while keeping fingers away from the cutter

ROUTER BITS

STRAIGHT FLUTED TWO FLUTE

TCT
TUNGSTEN
CARBIDE
TIPPED

Suitable for a wide range of applications such as engraving, grooving, rebating and shallow mortising.

- Use on softwoods, hardwoods, MDF, plywood and chipboard.
- All bits have a bottom cut feature.
- Metric diameters from 2mm to 50mm.

KEY TO PRODUCT REFERENCES

★ Solid Carbide insert. Handle small diameter cutters with care, take shallow passes.

✧ Centre tip for plunge cutting in abrasive materials

● No centre TC tip, so not suitable for plunging abrasive materials.

W For use with Trend Worktop Jigs.

H For use with Trend Hinge Jigs.

Micrograin Carbide Tipped router bits for use on hardwood, softwood, fiberboard, plywood and particle board.

- Micrograin Carbide Tips to ensure a perfect sharpness for extra life.
- Bits made to European Safety Standard EN847-1/2 which ensures quality materials are used. The tools are balanced and with round form to reduce user injury.
- Two fluted unless specified otherwise.

DIAMOND SHARPENING SOLUTIONS

5
YEARS
GUARANTEE

A precision range of quality diamond whetstones for all your sharpening needs.

- Double-sided stones.
- Suitable for all Carbide and HSS hand tools.
- Woodworking, turning, carving, gardening and domestic.
- 'Excellence in Engineering' award.
- Unprecedented five year guarantee.

TIP

Use little pressure, let the diamond do the work, use the weight of the tool only on the surface of the stones.

TECHNICAL INFORMATION

CONSTRUCTION

Monocrystalline micronized diamonds are electroplated onto a precision pre-ground substrate. Electroplating produces very durable products, hence an unprecedented 5 year warranty. The following micron sizes of diamond have been chosen as the optimum for performance of the great variety of hand tools that can be sharpened using this range. The diamond is set into nickel, 2/3 buried and 1/3 exposed (locked in like an iceberg), thus the 1000 grit surface, 15 micron has a sharpening medium of 5 micron.

EXTRA FINE 15 Micron/1000 Grit

1000 grit is perfect for producing razor/polished edges with a very fast speed of cut. Ideal for carvers, cabinet makers, hunting knives, all fine woodworking.

FINE 25 Micron/600 Grit

600 grit is the most suitable grade for general fine sharpening. Ideal for Carbide router bits, turning tool inserts and circular sawblades.

COARSE 50 Micron/300 Grit

300 grit has been chosen to optimise the speed of cut for large stock removal. It is an ideal grit size for flattening the backs of chisels and plane blades. Also the popular choice for general joinery/site work and several applications in the woodturning industry. Ideal for all HSS.

EXTRA COARSE 70 Micron/180 Grit

180 grit is made for rapid stock removal. Ideal for flattening waterstones, planer blades and chisels, re-shouldering knives, and taking nicks out of edges.

DOUBLE-SIDED SLIP STONES

APPLICATIONS:

- General Joinery
- Cabinet Making
- Turning
- Carving
- Pruners
- Loppers
- Shears
- Axes
- Budding Knives
- Scissors
- Kitchen Knives
- Serrated
- Straight Blades
- Hunting Knives

3" CREDIT CARD STONES

A double-sided coarse/extra coarse 300/180 grit credit card size stone. Ideal for woodturners, on-site chisel flattening and hunters in the field.

Ref.

U*DWS/CC/CX

Size: 3-1/4" x 2" x 1/16", 300/180 Grit

A double-sided coarse/extra coarse 300/180 grit credit card size stone. Ideal for woodturners, on-site chisel flattening and hunters in the field.

Ref.

U*DWS/CC/CX

Size: 3-1/4" x 2" x 1/16", 300/180 Grit

A double-sided fine/coarse 600/300 grit stone, with grit sizes for easy identification. Ideal for Carbide & HSS shaped router bits, Carbide inserts, woodturning tools and general woodworking. Supplied in a wallet.

Ref.

U*DWS/CC/FC

Size: 3-1/4" x 2" x 1/16", 600/300 Grit

3" CARVERS STONE

Almost twice as thick as standard credit card stones. Double-sided extra fine/fine 1000/600 grit stone has grit sizes for easy identification. Ideal for carving tools, Carbide and very fine edge sharpening.

Ref.

U*DWS/CS/FF

Size: 3-1/4" x 2" x 1/16"
1000/600 Grit

DIAMOND SHARPENING

PRECISION DIAMOND BENCH STONES

Monocrystalline diamonds electroplated onto a precision ground substrate.

- Fine grit is suitable for achieving a razor, shaving edge in seconds. Ideal for cabinet making and fine woodworking.
- Coarse grit re-shapes and re-hones damaged edges, ideal for site work, general joinery and flattening chisels and plane blades.
- Precision flatness enables the sharpening of Carbide and HSS inserts, spindle knives and clipper blades.
- Supplied with non-slip mat and cleaning block. U*DWS/B7/FC supplied in fabric tool holder.
- Use with Trend lapping fluid.

CLASSIC PROFESSIONAL BENCH STONES

DOUBLE-SIDED WORKSHOP STONE

Unique combination of surfaces for optimum performance.

- Precision flatness, with pre-ground substrate.
- Prevents 'snagging' in holes when sharpening small or pointed tooling.
- Clearance channels on the coarse surface disperses the residue faster when heavy stock removal is required thus increasing the speed of cut.
- Continuous diamond fine surface ideal for fine honing of knives, plane blades and chisels.
- Supplied in fabric tool holder with non-slip mat and cleaning block.

EXTRA FINE SIDE

1000 Grit 15 Micron

COARSE SIDE

300 Grit 50 Micron

6" TAPERED FILE

Flat top and convex back tapered file.

- Fine 600 grit (25 micron) monocrystalline diamond.
- For all hand tools.
- Ideal for garden and domestic applications.

Ref.

U*DWS/TF6/F

Size: 10-5/8" overall length
with 6" diamond length.

3" FINE TAPERED FILE

**A versatile half round/
flat tapered file for
woodworking, gardening
and domestic tooling.**

- Precision quality taper file.
- Fine 400 grit (35 micron) monocrystalline diamond.
- Split plastic contoured hand-grip which is pinned each side of blade.
- Designed for woodturning and carving tools. Sharpens Carbide Tipped tooling in seconds.

Ref.

U*DWS/TF3/F

Size: 6" overall length with 3" diamond
length thickness 3/32" to 1/16".

3" MINI FINE TAPERED FILE

**Precision quality
taper file.**

- Fine 600 grit (25 micron monocrystalline diamond).
- Split plastic contoured hand-grip which is pinned either side of blade.
- Suitable for sharpening forstner bits, rotary carving, woodturning and carving tools. Unique size allows access to difficult sharpening problems.

Ref.

U*DWS/TF3M/F

Size: 6" overall length with 3" diamond length, thickness 1/8" to 1/16".

PRECISION NEEDLE FILES

**Four precision quality electroplated
monocrystalline diamond files.**

- Fine 600 grit.
- Diamond coverage 3" (overall length 6-5/16").
- Supplied to the Aerospace industry.
- Ideal for wood, metals, plastics, glass and ceramics.

TOOL AND BIT CLEANER 532ml

Spray-on resin and pitch remover.

- Simply spray on wipe off.
- Ideal for sawblades, router cutters, planer blades, files, wrenches and drill bits etc.
- Excellent lubricant. Provides rust and corrosion protection.
- Has unique properties which break the molecular bond and lifts the dirt from the tool as opposed to eating away the dirt like citrus cleaners and other chemicals.
- Industrial strength cleaner that increases tool life.
- Non-flammable.
- Supplied in pump action dispenser.

SHARPENING ACCESSORIES

TREND LAPPING FLUID

Use with quality diamond abrasive products.

- A petroleum based synthetic lubricant to be used with diamond compounds.
- An advanced lubricant, with penetrating qualities and oil/water solubility, not only increases the cutting action, but assures superior lubrication of every diamond particle throughout the honing process and greatly reduces the risk of rusting.
- Ideal for cleaning and reduces the risk of clogging in CBN wheels.

Ref.s
U*DWS/LF/100 3.4 fl.oz
U*DWS/LF/250 8.5 fl.oz
U*DWS/LF/500 17 fl.oz

Can be adjusted to accommodate different guide bush spigots.

CONTRACTOR LARGE LOCK JIG

*For routing the faceplate and mortise
for larger locks quickly and accurately.*

- Suitable for two sizes of Baldwin locks with faceplate sizes 1-1/4" x 8" or 1" x 8" and mortise sizes 1" x 5-23/32" or 7/8" x 5-23/32".
- Fast, clean & accurate results on doors 1-5/16 inch to 2-1/4 inch thick, even in hardwood.
- Adaptor plate included to allow smaller templates to be fitted (as supplied with standard LOCK/JIG).
- An auger bit and drill is required to complete deep mortises.
- Includes 15/32 inch diameter 1/2 inch shank TCT router bit and 1-3/16 inch screw-on style guide bush.
- Jig requires a router with 3-1/8 inch plunge.

ACCESSORIES

DOOR STAND

Secures doors horizontally when cutting hinge recesses and mortice locks, and vertically to assist with door hanging. Ideal for use with Trend Hinge and Lock jigs.

 **All-Metal Construction**
supports doors up to 127.8lbs

 **Wide Stability Brace**
prevents Unwanted Movement

 **Non-Scratch**
Base

 **Thumb-Turn Clamp**
(1-1/4" to 2-5/32")

U*D/STAND/A

Support for routing hinges & mortises.

Support to assist fitting door to frame or lining.

CORNER CHISEL

To quickly square up rounded corners when using lock and hinge jigs.

 **Spring Loaded HSS Anvil**
for a Sharp Cut & Long Life

 **Ideal for Squaring Hinge Recesses in Door Frames**

 **Light Weight**
Aluminum Body Design

 **Can be**
Resharpened

U*C/CHISEL

NEW

UNIVERSAL COUNTERSINK

- Clamps onto any drill between 1/8" and 9/32" in diameter.
- For wood and man-made boards.
- By flipping the countersink it can be used as a non-cutting depth stop.
- The drill passes through the body of the countersink and is secured by two hex screws which clamp the countersink onto the drill at the required position.

- ▲ Ensure flutes of drill are aligned with flutes of countersink.
- ▲ Not suitable for production applications or for metals. Not for use with routers.

TCT

Fully adjustable from 3mm to 9/32".

TCT for long life.

Can be flipped 180° to act as a depth stop.

Drill bit not included.

JOINTING BISCUITS

Biscuit jointing has proven to be one of the strongest, fastest, safest and most accurate ways to join hardwoods and softwoods, plywood, composition board etc. Compared to dowelling, biscuit jointing is faster and more precise. The biscuits are made of die-cut beech which expands when in contact with a woodworking adhesive eg. PVA glue.

For certified biscuits see our website.

VARIJIG SYSTEM

VARIJIG FRAME SYSTEM

Adjustable frame and guide for use with a router.

- Adjustable frame for rectangles and squares.
- Allows a router to cut recesses, slots, face panel moulds etc. Can also be used to create panel doors.
- Four lengths of 27-1/2" extrusion with dual metric/imperial measuring scales.
- Working area 23-1/2" x 23-1/2".
- Cross cut accuracy to 5 thou.
A square is required to square frame before use.
- Use with a guide bush with minimum 5/16" spigot length, or use Unibase as guide.

Ref.
U*VARIJIG

Router not included.

INCLUDES

- 4 x Alloy extrusions with scales
- 4 x Corner brackets
- 1 x Anti-tilt shoe
- 1 x Anti-tilt shoe fixing screw

REPLACEMENT PARTS

Frame jointing kit
Set of four corner jointing brackets.

Ref.
U*VJS/FJK

Rectangles

Squares

Anti-tilt Shoe

VARIJIG 100" STRAIGHT GUIDE

For guiding routers, circular saws and jigsaws.

- Two lengths of extrusion with jointing piece to give maximum working length of 100" (2540mm). Reduced length for easier transport and storage.
- Clamps can slide along each extrusion.
- Maximum material clamping thickness 1-1/4".
- Adjustable friction washer on clamps prevent clamp from sliding too freely.
- One extrusion has dual metric/imperial scale.
- Can be combined with Varijig parts.

Ref.
U*VJS/G/100

INCLUDES

- 1 x 56" Alloy extrusion with scale
- 1 x 56" Alloy extrusion
- 1 x Connecting block
- 1 x Hex key 4mm (5/32")
- 2 x 1-1/4" Sliding friction clamps

Crosscutting

VARIJIG EXTRA LONG PIVOT CLAMPS

Pair of pivoting sliding friction clamps with 2" clamping thickness.

- 360 degree clamp rotates to allow the pad of the clamp to be secured firmly to the workpiece.
- The clamp can be used with the Varijig system including the Varijig set, straight guides and angle guide.
- Aluminum body with soft pads to prevent marring of component.
- Friction lock design, so they can be positioned in extrusion without sliding out end when clamp lifted up.

Ref.: **U*VJS/PCK/L**

OPTIONAL ACCESSORIES FOR VARIJIG SYSTEM

Clamp kits (Fit to extrusions on varijig system)
Pair of sliding friction clamps with 1-1/4" clamping thickness.
U*VJS/CK

Pair of long sliding friction clamps with 2" clamping thickness.
U*VJS/CK/L

Connecting block kit
Jointing block for extrusions.
U*VJS/G/CB

Recommended 1-3/16" guide bush
Euro Style with extra long 3/8" spigot
for U*VJS/TG/JIG or U*VARIJIG.
U*GB30/A

Screw-on Style.
U*GB/US/30

Universal sub-base
Certain makes & models of router will require a Unibase
to accept the Euro Style guide bush Ref. U*GB30/A.
U*UNIBASE

VARIJIG SELF CLAMPING GUIDES

Self clamping, straight line clamp guides that use the Varijig low profile extrusion.

- For accurate guiding of routers, saws and jigsaws.
- Low profile extrusion with integral clamping of workpiece, double locking mechanism and two full length T-slots.
- Common Varijig extrusion to 24 inch (610mm), 36 inch (915mm) and 50 inch (1270mm) Clamp Guides.
- Metric and imperial sliding scale.
- Extrusion profile 5/8 inch (16mm) high x 2-1/8 inch (54mm) wide.
- Ref. VJS/CG/PRO8 is an extra wide clamp 5 inch (127mm) with four T-slots. Ideal for large sheet material, clamps up to 96 inches (2.44 metres).
- Jaws have fixing holes for accessories.

Ref.s

U*VJS/CG/24 24" (610mm)

U*VJS/CG/36 36" (915mm)

U*VJS/CG/50 50" (1,270mm)

BEARINGS 3/16" BORE

Bearings are shielded to prevent penetration of dust and grease packed for life.

- They should not be cleaned with solvent or lubricated as this will dissolve the grease and cause premature failure.
- Scrape off any resin build-up.
- Always check the tightness of the fixing screw before using bit.

Ref.	OD mm	OD inch	ID mm	ID inch	T mm	T inch

COLLET EXTENSIONS

For use in router tables where there is limited router bit shank length available.

- Precision machined one-piece steel body with a 1/2" shank, fitted with a multi-slit spring steel collet and collet nut.
- Increases bit spindle length by 2".
- Maximum tool diameter 1-31/32". Requires 3/4" & 7/8" A/F spanners.

Ref.s:

U*CE/127127 Collet extension 1/2" shank & collet

U*CE/CNS/127 Collet & nut set 1/2"

U*CE/NUT Spare collet nut

SHELF SUPPORT TEMPLATE

Allows routing or drilling of 32mm "Euro" centre holes for 5mm diameter shelf supports.

- Made from clear plastic, with graduation scales.
- Adjustable clamping bar with two locking knobs.
- Can be used with MDF, timber and particle board.
- A Unibase may be required for certain makes and models of router.

Ref.

U*TEMP/SS/A

Size: 19-11/16" x 5-1/8" x 5/16"

INCLUDES

- 12 x Plain metal shelf supports
- 1 x Knurled repeat index pin
- 1 x 9.5mm guide bush

SHELF SUPPORTS

Metal

With rubber sleeve to protect glass.
Pin: 13/64"Ø (5mm) x 21/32"OL

U*SS/M5/12 (pack of 12)

Brass plated

Pin: 13/64"Ø 5mm x 29/32"OL
Load capacity 220.5lbs (100kg)

Plastic

Load capacity 220.5lbs (100kg)
U*SS/P5/12 (pack of 12)

SUITABLE TOOLS

5mmØ recommended Bit
CraftPro router drilling bit.

U*C174X1/4TC

Shelf support drill bit guide
A quick release shank lip and spur 5mm HSS drill bit guide, which when used with template will allow 5mm diameter blind holes to be drilled for shelf supports.

U*TEMP/SSD/5MM

ROUTER POD

A simple and effective accessory designed to keep your router in a safe upright position when not in use.

- Protects the cutter and guide bush.
- Gives fast, easy access when you are ready to rout.
- Stack double for extra long cutters.
- Anti-slip rubber feet for a secure grip.

Ref.

U*R/POD/A

MINI FLEXIBLE CURVE GUIDE

A mini size flexible guide that is used to make a pattern, allows a shape to be cut repeatedly with precision.

- Will produce round, segmental or elliptical arch shapes, curves and cutouts.
- Use with a router and bearing guided cutter or with a guide bush and unguided cutter.
- Flexible guide is screwed to a template with the fixing screws included.
- Template should be rough cut oversize prior to routing.
- For MDF boards up to 3/8 inch thick.
- An 5/16 inch user made spacer should be fitted to underside of router to keep router stable.

Ref.

U*CURV/8X500
U*CURV/8X1000

MEASURING & MARKING

DIGITAL LEVEL BOX

ANGLE SENSOR
TECHNOLOGY

Find the angle on a surface quickly and accurately. Ideal for table and mitre saws.

- Automatic LCD large backlight for easy reading.
- Measures in relative and absolute measurements.
- Working range of angle measurement $4 \times 90^\circ$.
- Automatic digital inversion for overhead measurements.
- Magnetic base for hands free use.
- Zero button to determine the angle change from initial measurement.

Ref.
U*DLB

SPECIFICATION

Read out accuracy for all angles $\pm 0.2^\circ$
 Resolution 0.1°
 Auto shutdown time 5 minutes
 Auto shutdown backlight 30 seconds
 Size $2-21/64" \times 2-21/64" \times 17/64"$
 Weight 2.9oz

INCLUDES

- 1 x AAA 1.5V Battery
- 1 x Fabric Pouch

Magnetic base

Large back light

MULTISCRIBE

A profile matching tool used to transfer contours from one shape to another and marks onto various materials.

- 15 functions including parallel scribe, convex scribe, contour profile scribing and line block. • For use by all trades, carpenters, joiners and builders etc.
- Built in spirit level & pencil sharpener.
- Steel blade with $13/64"$ and $1/4"$ graduations for profiling.

Ref.
U*MS/PRO

METRIC & IMPERIAL DIGITAL DEPTH GAUGE

Horizontal and vertical measuring.

- For hand routers, router tables and saw benches.
- LCD readout for mm, inches and fractions with auto shut off 5 mins.
- Removable pin to allow hole depths to be measured. Pin can be parked on arm. Hole depth 2".
- Self standing with magnetic feet and flat back.
- Injection plastic moulding with plastic rule.
- Read-out has relative co-ordinate and absolute function.
- $2-3/8"$ wide aperture.

Ref.
U*GAUGE/D60

REPLACEMENT PART

Battery CR2032 3v
U*BAT/CR2032/3V

AIRSHIELD PRO

AIR CIRCULATING FACE SHIELD

An all-in-one, fully protected air circulating face shield that delivers a steady flow of fresh, filtered air for comfortable prolonged use. Provides respiratory protection against harmful hardwood, brick, concrete and stone fine dust particles for prolonged periods. The self-contained, head-mounted system (without trailing leads or hoses) is ideal for regular workshop and site use.

Positive Pressure Respiratory Protection

Removes the need for on-site face fit testing and prevents fogging and misting

Panoramic Flip-Up Visor

Provides excellent all-round vision and protects eyes and face against flying debris (medium energy impact) and splashes - can be protected using optional Visor Overlays (AIR/P/3C)

2x
TH2P

Twin Filters

Deliver 98% filtration performance

Rear-Mounted Ultra-Quiet Fan & Motor

Supplies 210l/min of filtered air whilst minimising noise and optimising balance

Removable 8-Hour Battery

Provides all-day power for maximum uptime and can be recharged on-board or in a cradle (AIR/P/5)

Integral Ear Defender Mounting Points

Compatible with AIR/P/6A ear defenders to protect against machine noise

Quick-Release Headband

Adjusts between 20-15/32" and 24-13/32"

Visual & Audible Air-Flow Warning Indicators

To ensure the battery and filters are providing maximum protection

Combination Face Seal & Hood

Ensures contaminated air cannot enter the respirator. Ideal for those with facial hair and prescription glasses
