

Rout me a letter

Although it won't stretch to writing your thankyou letters, Trend's lettering templates are ideal for making house signs. The complete alphabet of 57mm (2 1/4") block capitals is through-cut on a set of four clear plastic panels, and two for numbers. Most letters are then routed with a single cut but 'B', 'R' and 'Q' need the template to be repositioned to complete the letter. The templates are simple to use with letter spacing being the only aspect requiring a little experience-based skill.

The complete set of Trend letter templates are priced at £29.95 (+ VAT), with a matching set of numbers at £14.95 (+ VAT). A 13mm guide bush, priced £3, will also be needed for use with either set.
